

## MW3398

### **Function**

This is a versatile charger that can charge, discharge and check rechargeable Ni-Cd and Ni-MH batteries. There is a built-in lamp to indicate the strength of the battery being checked. It can be used with a combination of 1-4 pcs of cells of the following type: Micro AAA, Mignon AA, Baby C, Mono D. It can be used to charge 1-2 pcs of Block 9V batteries.

### **Technical Specification:**

Input Voltage: 230V AC 50Hz

Charge Current: 120mA for AAA, AA, C and D size batteries  
13mA for 9V batteries

### **Operating Instruction:**

- 1) Insert the AC power supply cord into mains.
- 2) For Charging: Switch the function switch on the unit to “charge” position. The individual red LED will light up when batteries are inserted into the corresponding slot to indicate charging is in progress.
- 3) For Testing: Switch the function switch on the unit to the “test” position. The red LED in the first slot (closest to the function switch) will turn off. Insert the battery to be tested into the first slot. The lamp will indicate the strength of the battery. Batteries at other slots will continue to be charged.
- 4) For Discharging: Switch the function switch on the unit to the “discharge” position. (Please note that this charger can not discharge 9V batteries) All the red LEDs (with the exception for the ones for the 9V batteries) will go off to indicate batteries are in discharge mode.
- 5) Please note that this is not an automatic charger. The charger does not switch to charge mode automatically after discharge. To check if the batteries are fully discharged, use the “test” feature.

### **Warning**

- 1) Do not charge non-rechargeable batteries.
- 2) For indoor use only.
- 3) If the external flexible cable is damaged, it shall be replaced by the manufacturer or his service agent or a similar person in order to avoid a hazard.
- 4) This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children

without supervision.

**Charge Time Table:**

BATTERY TYPE	CHARGE TIME	
	Ni-Cd	Ni-MH
AAA	180mAh	550mAh
Micro/UM4	2-5hrs	6-10hrs
AA	500mAh	1200mAh
Mignon/UM3	5-8hrs	10-20hrs
C	1200mAh	1800mAh
Baby/UM2	10-20hrs	15-25hrs
D	1200mAh	2000mAh
Mono/UM1	12-25hrs	20-30hrs
9V Block	100mAh	140mAh
006P	5-11hrs	8-15hrs
